

Latex Homework 9th Grade

Week 1 - Intro to LaTeX

Aditya Velusamy, Kayla Dayman, Ian To

Edited August 24, 2023

1 Bio: Aditya Velusamy

I am Aditya Velusamy. I am in 9th grade and a linux enjoyer(currently a Linux Mint user but I have used Manjaro and Debian). I enjoy tinkering with computers and technology. I hope that in this class I can get more proficient with LaTeX as well as explore more areas of maths.

2 Bio: Kayla Dayman

I am Kayla Dayman, I'm currently a freshman and I am not an interesting person. My main hobby is crochet, which I've been doing for about five and a half years. I also got a 5 on the AP Calculus BC test. I hope to become a bigger nerd than I already am over the course of the year.

3 Bio: Ian To

I am Ian To, a freshman currently in class standing. I enjoy doing music and code, with music I've been doing since I was around 2 years old. I hope that in this class I can become good at using LaTeX and know more math topics.

4 Quadratic Formula Macro

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

5 Group Picture
